

# Are you making the most of GFSI?

(and if not, how can we help you?)

**GFSI is unique.** Today, GFSI is a vibrant global multi-stakeholder community passionately collaborating under a common goal:

**safe food for consumers everywhere.**

In the food industry, **GFSI is globally-recognised**, often dubbed a “food safety passport” or “a stamp of approval”, even “a pre-requisite to doing business.” Are you leveraging GFSI for your company and your consumers?

## OUR STRATEGY

## YOUR BENEFITS

### PUBLIC-PRIVATE PARTNERSHIPS

Contributing to the global harmonisation of food safety regulations and reducing trade barriers

A bridge enabling a positive and direct discussion between industry and government regulators

### HARMONISATION

Creating consensus on what good food safety management looks like

Improved business efficiency by eliminating duplication of audits and reducing trade barriers

### CAPABILITY BUILDING

Providing a pathway to certification for developing companies

Reduced food safety risk and facilitated sourcing in an enriched supply chain

# A FEW EXAMPLES

just ask us for more

## PUBLIC-PRIVATE PARTNERSHIPS

Did you know that GFSI has defined common projects with regulators in **9 countries** and with **6 international IGOs** through the leadership of our **7 Local Groups**?

## MORE AND MORE GOVERNMENTS around the table

In only its 4th year, our 2019 G2G (government-to-government) meeting gathered **125 participants**, representing **29 countries** and **5 IGOs**.

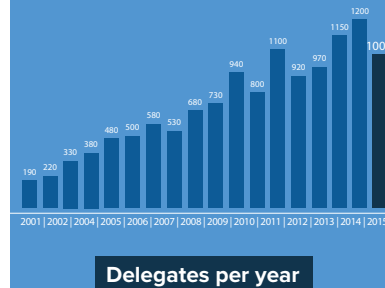

## GFSI Board

Led by a Board of retail and manufacturing members, GFSI brings together a global multi-stakeholder group composed of certification programme owners, service providers, regulators, academia and more.

## A more STREAMLINED global supply chain

GFSI-recognised certificates are increasingly seen as a "Food Safety Passport" and have been issued in **182 countries** by **11 benchmarked certification programme owners**.

## KNOWLEDGE-SHARING

- The GFSI Conference has truly become the industry's annual rendezvous for the advancement of food safety worldwide, with **1,200 delegates** from over **50 countries**.
- GFSI's **+25 Technical Working Groups** are another opportunity for companies to prepare for future challenges.
