

Dear International Invitee,

Immigration, Refugees and Citizenship Canada (IRCC) is sharing the following information for international invitees seeking entry into Canada to attend the **2026 GFSI Conference** which has been registered with the IRCC Special Events Liaison Unit and issued **Special Event Code 26GFSC**.

We encourage you to familiarize yourself with the information below before submitting an application to IRCC.

Application Types

Most foreign nationals a temporary resident visa (TRV) or an Electronic Travel Authorization (eTA) to travel to Canada. For information about the TRV and eTA application processes, see: [Visit Canada](#). To find out if you need a TRV or eTA to travel to Canada, see: [Find out if you need a visa to travel to Canada](#)

Visa Processing Times

If you require a visa to travel to Canada, you must verify visa [processing times](#) for your region and apply for your visa accordingly. Please note processing times for visa applications posted on-line are historical, meaning they're measured based on how long it took to process 80% of applications in the past 6 - 8 weeks. As a result, processing times may be different than those posted on-line at the time of application submission. Participants are strongly encouraged to apply **as early as possible** ahead of their departure date in order to allow sufficient time for their application to be processed and if approved, subsequent visa issuance in their passport.

It is important for international invitees to be familiar with the TRV and eTA application processes. Understanding the different processes will contribute to ensuring that invitees to events in Canada have a smooth application experience.

Special Event Codes

Events registered with IRCC are issued a unique Special Event Code to help track and coordinate visa processing. Applicants **must** tag their applications with the event’s Special Event Code, which can be found in the letter of invitation provided by the event organizer.

TRV applications are considered on a case-by-case basis based on the information presented by the applicant. The onus is on the applicant to demonstrate they meet the requirements for a TRV. While a Special Event Code has been assigned to the event, it **does not offer** any advantage to the applicant in terms of a positive visa outcome. The applicant must meet all eligibility criteria to receive a visa.
